

SNOW STALLS TRAINS IN NORTH

Trains from East Fail to Reach
Seattle—Are Halted in Cas-
cades by Drifts

NORTHERN CALIFORNIA IS COVERED WITH SNOW

White Blanket From Oregon
Line to Below Chico—Ari-
zona Has Intense Cold

SEATTLE, Jan. 8.—Except for those on the Oregon and Washington line, no trains reached Seattle today. All the Northern Pacific, Great Northern and Milwaukee trains are stalled in the Cascades by heavy winds and snow. The Great Northern is completely demoralized by snow-slides. No trains are expected for the remainder of the week. Wire communication was restored at noon. It was reported then that the majority of trains would be moving on all roads except the Great Northern by night. Many are already sixteen and twenty hours late.

Northern California Snow Covered
REDDING, Cal., Jan. 8.—Snow covers the state of California from the Oregon line to a point south of Chico. A foot and a half has fallen at Dunsuir, with ten inches in this city. The mercury registers thirty degrees here, and twenty-five at Dunsuir.

Snow Melts at Capital
SACRAMENTO, Jan. 8.—Snow began falling at 10:30, but melted rapidly.

COLD IN ARIZONA—TWO DIE AT AGUA PRIETA FUEL SHORT
DOUGLAS, Ariz., Jan. 8.—Unprecedented cold prevails here, the thermometer registering six below. Much suffering and danger is following a fuel shortage. Two deaths have occurred at Agua Prieta as a result of the cold.

BUT THREE SAVED FROM ROSECRANS

One Drifted Ashore After Rid-
ing a Plank for Seven Miles
on the Sea

ASTORIA, Ore., Jan. 8.—It was determined at daylight that twenty-nine people had been drowned in the Rosecrans wreck. Three men were taken from the masts and one man drifted ashore. Captain Patterson, the official Associated Oil Company's pilot, reported today that eight dead bodies had been washed ashore, including that of Captain Johnson. Quartermaster Fred Peters, who drifted seven miles to sea on a plank, was the first ashore at the change of tide. The three men taken from the masts were picked up by a lifeboat, one of which died later of exposure.

STORY OF ROSECRANS WRECK TOLD BY PETERS

TIOGA, Ore., Jan. 8.—A graphic story of the Rosecrans wreck was told by Quartermaster Peters, a survivor. He said: "When the Rosecrans struck, she listed heavily, exposing the entire deck to terrific combers. It was awful the way the boys fought for life, trying to get free of the dark bunk cabin where the majority were. I don't believe any of these got to deck. I saw a dozen try to drag themselves through the companionway, and all were washed back. They didn't scream much. There was too much water choking them. The darkness and cold was awful. I managed to get to deck and was almost immediately washed the entire ship's length at express-train speed. A flying plank struck me. I hung on to it. I remember nothing more until I was picked up on the beach. The watchers say my plank drifted for hours seven miles out."

Peters believes the helmsman mistook the lightship on Columbia bar for a lighthouse further up the coast.

FRANK CHANCE SIGNS

CHICAGO, Jan. 8.—Frank Chance of Glendora, Cal., today signed a three-year contract as manager of the New York Americans. He reached the agreement with owner Farrell in the offices of President Johnson of the American League. His salary was not announced.

U. C. Fight Over Liquor Will Go To Legislature

SACRAMENTO, Jan. 8.—The alleged refusal of the students and officers of the University of California student body to submit to a student vote the proposition to abolish liquor at all university functions will be brought before the legislature by Lieutenant Governor Wallace, to whom the "drys" appealed. Wallace declares all students should have a vote as to whether liquor be served at banquets and other functions. He stated that he understands another proposition, changing the legal limits near public institutions where liquor can be sold, will also receive legislative attention.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Cloudy and warmer tonight and Thursday; probably showers; light southeast wind.

Locomotive Engineers Offer to Arbitrate Dispute

NEW YORK, Jan. 8.—The Brotherhood of Locomotive Firemen and Enginemen yesterday afternoon declined to accept the schedules proposed yesterday by the conference committee representing fifty eastern railroads, but offered to arbitrate the questions involved under the Erdman act.

Record Automobile Registration Monday

SACRAMENTO, Jan. 8.—Monday was the record day in the history of the automobile registration, department of the secretary of state's office. Superintendent Mansfield reports the registration of 194 new automobiles of an aggregate value of about \$400,000.

**Gov. Foss Urges Federal
Income Tax Amendment**
BOSTON, Jan. 8.—Gov. Foss sent special messages to the legislature yesterday urging the early ratification of the federal income tax amendment and a new personal tax law.

**\$50,000 Fire in
Sanctuary Town**
WINNIPEG, Jan. 8.—Fire destroyed the Masonic Temple, a theater building, the Occidental hotel and several small buildings at South Battleford, Sask., with a loss of \$50,000.

**Powell Clayton Resigns
National Job Held Since 1872**
WASHINGTON, Jan. 8.—Powell Clayton, Republican national committeeman from Arkansas since 1872, yesterday handed his resignation to Chairman Hilges. General Clayton told Mr. Hilges he expects to give up his residence in Arkansas and live in the District of Columbia. **Nine Killed in Collapse
Of Building in Ancient Rome**
ROME, Jan. 8.—Nine persons were killed and eleven injured in the collapse of the National Industrial Museum. The foundation was weakened by excavations for an apartment house adjoining.

GARMENT STRIKERS CLASH
NEW YORK, Jan. 8.—Frequent clashes marked the garment workers strike today. One striker was clubbed. Fifteen thousand more employees quit. Kimono wrapper workers strike is scheduled for tomorrow.

THE "REGISTER'S" NEW HOME MAY PROVIDE FOR OTHERS

J. P. Baumgartner has purchased from D. Halliday the lot 50x125 feet, on the southwest corner of Third and Sycamore streets, where he will build a new home for the "Register," which has completely outgrown its present quarters.

The new building will cover the entire lot, 50 feet frontage on Sycamore and 125 on Third, and will be one story and basement or two stories and basement, dependent upon whether or not desirable tenants can be secured for the second story. The entire lower story and basement will be occupied by the Register's newspaper publishing plant, including a complete blank book bindery and blank book manufactory.

It is the intention to make the Register's new home a model of completeness and efficiency and to provide every convenience and comfort and hygienic advantage for the large staff of workers it will house.

Work will begin on the building as soon as the plans and specifications, now being drawn, can be completed and it is expected that within ninety days or four months the "Register" will be in its new home.

If anyone desires quarters in the upper story that will be built if tenants for it can be found they should see Mr. Baumgartner at the Register office tomorrow morning if possible, as he will be away for several days after tomorrow at noon. Any rooms or space desired will be arranged to suit tenants. Every room or compartment will be flooded with light and air by means of light-air wells.

BIDS FAR OVER AVAILABLE FUNDS

Take Low Figures, Poly Group
Would Cost \$207,000 With
\$160,000 to Spend

HOPE TO CHANGE PLANS TO SUIT

Must Eliminate Some of the
Buildings of the Group or
Get More Money

Radical changes will have to be made in the plans and specifications for the polytechnic high school if the buildings are put up for \$160,000, the amount reserved by the board of education for the buildings. Bids were received last night, and with the lowest figures offered by those who bid upon the general contract, the painting, the plumbing and other contracts the lowest total would be \$207,000. That is more than \$147,000 more than the school district has to spend for the work. The school board is in a quandary. It was much disappointed in the bids.

The district voted \$200,000 for the polytechnic high school. Of that more than \$20,000 has been spent for a site. It was estimated that the furniture and apparatus for the group would cost not less than \$20,000. One item of furniture alone, seats for the auditorium, would cost \$5,000. The school board instructed the architects, Withey & Davis of Los Angeles, to draw plans for a group of polytechnic high school buildings that would not cost over \$160,000, and the call for bids stated that \$160,000 was the limit that could be spent for the buildings. This amount would include the buildings complete ready for furnishing, to include the general contract, heating, plumbing, painting, etc.

Last night bids were opened. The lowest bid for the group of four buildings came from G. C. Condon of Los Angeles, who bid \$164,900. That did not include the lesser contracts, and even at that was \$4,900 above what the school board has to spend for the entire group complete except furnishings.

Bids were opened last night as follows:

For the general contract:
J. A. Crook, Los Angeles—Four buildings, \$172,080. Administration \$74,744; cafeteria, \$18,035; manual arts, \$41,454; fine arts, \$37,847.

David Irvine, Riverside—Four buildings, \$169,996. Administration, \$78,896; cafeteria, \$13,400; manual arts, \$41,700; fine arts, \$36,000.

G. C. Condon, Los Angeles—Group—\$164,900. Administration, \$73,200; cafeteria, \$13,400; manual arts, \$40,724; fine arts, \$37,576.

J. F. Atkinson, Los Angeles—Group, \$183,499. Administration, \$78,691; cafeteria, \$14,419; manual arts, \$46,351; fine arts, \$44,554.

G. E. Preble and C. McNeill, Santa Ana—Four buildings, \$206,152. Administration, \$86,291; cafeteria, \$28,285; manual arts, \$50,734; fine arts, \$40,812.

Somers & Lund, Los Angeles—Group, \$188,443. Administration, \$69,724; cafeteria, \$14,419; manual arts, \$46,351; fine arts, \$44,554.

(CONTINUED ON PAGE FIVE)

LONG NIGHT OF COLD ADDS TO DAMAGE

Estimated That 35 Per Cent
of Oranges Will Be Un-
marketable

DISTRICT ALONG FOOTHILLS SAFE

Damage in North End of Coun-
ty Greater Than Was at
First Reported

About thirty-five per cent of the orange crop of this county will be unmarketable as the result of the extreme cold weather of Monday night and last night.

Experts disagree upon the figures, but the average estimates of losses will probably run between thirty-five and forty per cent.

The Valencias were hardest hit, some of the buyers think that seventy per cent of the Valencias had ice in them yesterday morning and again this morning. The navel oranges were more matured, and in better condition to withstand the cold. Lemons in the sections where the thermometer dropped lowest are in bad shape, and no doubt about it.

Even where the cold was heaviest, many orchards where smudging was done have pulled through in good shape.

Last night finished orchards that were in bad shape as the result of the cold of yesterday morning. Taking the county over the thermometer was from two to four degrees higher than yesterday morning, but probably the fruit, where frozen, was frozen just as hard last night as the night previous. The cold was of longer duration. In some places the thermometer was down to 28 by 8 o'clock last night, and the temperature did not raise above that mark until after 7 o'clock this morning. Reports from various sections where the thermometer seemed to be the lowest show the low mark last night to have been 21, as against 18 to 19 of the night before. Yesterday morning's drop, however, was of short duration as compared to last night.

In ordinary years the orange crop of this county is worth \$2,500,000. Dozens of men who have been out among the orchards all over the county are confident that a large area of this county has escaped damage. Along the foothills from Olive to Lemon Heights, including Villa Park and El Modena, is a section where almost no damage has been detected further than that in some places tender shoots are blighted.

Those who have been through the Anaheim, Fullerton and Placentia sections say the damage there is greater than reported yesterday. Nursery stock is hard hit.

A Fullerton dispatch dated last night says: "The damage to the orange crop is estimated at from 30 to 50 per cent in the Fullerton-Placentia district. At fifty it would aggregate \$750,000. A. S. Bradford, who has been a resident of Placentia for twenty-two years, says this is the first time he has ever seen fruit injured here by cold weather. He believes the loss on fruit in Placentia will be 50 per cent, though orange trees are not injured. He says walnut trees may have been injured, as he saw some dripping after the sun came out this morning. The mercury stood at 22 degrees for eight hours.

"W. L. Benchley of the Benchley Fruit Company estimates the loss at 50 per cent in Fullerton. He thinks it will be ten days before correct estimate can be formed.

Some of those who have been watching the orchards say that the reason the trees escaped with so little damage is that the cold dry spell had hardened the trees to stand the drop, and that for the same reason many oranges thought to be hurt may come through.

The thaw-out has been favorable. A cold night followed by a hot day does more damage than a cold night followed by a cold day.

In the celery district no attempt is being made to estimate the damage. There is still \$150,000 worth of celery in the ground. Of that thirty to forty per cent, or even fifty per cent, may be ruined.

The orange growers of the Tustin district who have been smudging put up their hardest fight last night. Pots were lighted early and kept going all night. Some of the orchardists were handicapped by a lack of fuel.

The Lambert-Adams-Rice nursery came through safely. F. B. Brown, Boyden brothers and other orchardists who smudged could find no ice in their oranges today. R. E. Reid had to fight all night. Outside his place the temperature was 21. His orchard may have suffered some damage.

County Horticultural Commissioner Bishop was out today gathering data for a report to the state.

In Santa Ana J. M. Copeland's thermometer dropped to 28 between 12 and 3 o'clock.

GOOD ROADS BONDS WERE SOLD TO-DAY

\$1,270,000 Issue Purchased by Combination of Bond Buyers; \$28,829 as The Premium

Orange county's good roads bonds were sold today to E. H. Rollins & Sons, N. W. Halsey & Co. and Torrance, Marshall & Co. The premium that was bid is \$28,829.

There is general satisfaction among the officials at the courthouse who have been watching these bonds with all the care in the world. These officials include the Board of Supervisors, the County Highway Commission, District Attorney L. A. West, and County Clerk W. B. Williams.

The time for opening bids was 11 o'clock. County Clerk Williams had two envelopes, one of them containing two offers. Each bid was from a combination of buyers, who had joined together in order to handle the big issue, by far the biggest ever handled in Orange county.

The Rollins-Halsey-Torrance, Marshall bid offered \$28,829 premium. It had a second offer of \$16,115 premium if the bonds were deliverable to the county \$370,000 on March 1, \$300,000 on May 1, and \$300,000 on Sept. 1. The other bidders were a combination of the Anglo & London Paris National Bank of San Francisco, the Harris Trust & Savings Bank of Chicago and Wm. R. Staats Co. The bid was \$26,826.

Each bid was accompanied with a certified check for \$38,100.

The supervisors referred the bids to District Attorney West and Attorney R. Y. Williams, who entered into a conference with M. M. Crookshank, president of the County Highway Commission. They accepted the Board of Supervisors to advise the first bid of the Rollins combination. That action was then taken by the supervisors.

A full transcript of the proceedings will be furnished the buyers by the county clerk, and the bonds will be passed upon by the attorneys for the buyers. An early decision is expected.

The bonds are to be dated March 1, 1913, and for that reason they will not be delivered before that time. The buyers have plenty of time in which to examine the issue, and still leave the clerk plenty of time to have the bonds printed and signed on May 1, and made ready for delivery. If the bonds are accepted the money for the building of 107 miles of fine roads for this county will be available by March 1.

The bonds are to be dated March 1, 1913, and for that reason they will not be delivered before that time. The buyers have plenty of time in which to examine the issue, and still leave the clerk plenty of time to have the bonds printed and signed on May 1, and made ready for delivery. If the bonds are accepted the money for the building of 107 miles of fine roads for this county will be available by March 1.

LITTLE HOPE FOR PRATER; CULVER WILL LOSE LEG; STACY BACK ON HIS JOB

Alexander A. Prater, who was shot through the head by the desperado who killed Under-Sheriff Robert Squires, is rapidly sinking, and it is not believed that he can survive. Prater's mind is a blank. Physically he has been sinking, and his physician, Dr. H. S. Gordon, does not believe the man can live.

With death hovering over Prater's head at the Santa Ana Hospital, it looks as though the bloody battle at Tomato Springs will claim another victim.

William Culver, who was shot through the leg by the desperado, will lose a part of his leg. Amputation between the ankle and knee has been decided upon, and Culver has been told that the operation will be necessary.

Of the three men who were wounded by the desperado, Deputy Sheriff J. F. Stacy only is on his feet. A bullet struck Stacy in the shoulder. For several days Stacy has been back on the job as guard of county prisoners.

Prater came here from Texas about a year ago, and secured employment on W. A. Cook's lease near Myford. He was at the place on the night of Dec. 15 when the desperado attacked Myrtle Huff, sister of Mrs. Cook. Prater immediately joined in the search for the girl's assailant.

He was among the first on the ridge on which Squires was killed. To some of the men there he proposed that he be allowed to go single-handed after the desperado, but was dissuaded from the attempt.

Prater was with Culver and others

who went to the side of Robert Squires. The desperado, hidden in the bottom of the canyon, fired two shots. One bullet struck Culver in the leg. The other bullet entered Prater's right temple and came out above his right eye, bringing some of his brains with it. A piece of Prater's skull as big as a thumb-nail was picked up on the ground the next day. After being injured Prater was taken down the ridge, and had but arrived at the emergency hospital at the Chambers ranch-house when the rush on the desperado occurred, and the desperado's life ended, either by a bullet from his own revolver or from a revolver of a member of the posse.

There is no hope of being able to save William Culver's right leg. Culver, blacksmith at Myford, was one of the posse that chased the desperado who attacked Myrtle Huff on the night of Dec. 15. Culver and others from off the San Joaquin were on the mountain when Squires was killed. It was Culver who replenished Constable Jackson's supply of ammunition after Jackson had fired all his ammunition at the desperado.

Culver and A. A. Prater were wounded as they were going to where Squires' dead body lay. Culver was struck through the right leg at the knee, and an artery was severed. The man was taken to the hospital and every effort made to save the limb. Circulation has not been maintained in the lower part of the leg, and the leg will have to be amputated at a point half way between the ankle and knee. Dr. J. M. Burlew expects to perform the operation within two or three days.

NEW BOAT LINE TO BE UNDER U.S. FLAG

New York Company to Ply Steamers Between Coast Cities and N. Y. via Canal

LOS ANGELES, Jan. 8.—With the opening of the Panama Canal, the International Mercantile Marine Company of New York will offer weekly service by boats of 10,000 tonnage between San Francisco and Los Angeles and New York. The service will be under the flag of the American line and arrangements have already been made to assign four American-bottom boats to it. These facts are attested by William Roseman, manager of the Ferguson Steamship Agency.

The time between New York and San Francisco will be fifteen days. The ships selected for the new service have capacity of 150 first-cabin passengers, 250 second-cabin, and 650 third-cabin. In connection with the Atlantic Transport, Red Star, and White Star Lines of the International company, plying between New York and all important European ports, the new service to the Pacific coast will afford direct European connections.

Try an 80 lb. sack of our mixed feed, good for horses or poultry and will fatten quickly. For sale by all dealers. OLIVE MILLS.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggists, and notice the improvement in the appearance of your hair after a few days treatment.—Rowley Drug Co.—Advertisement.

WOMAN RECORDER ARRESTED

City Recorder of Park City, Utah, Found Short in Accounts of the City

PARK CITY, Utah, Jan. 8.—Mrs. Mamie M. Holland, city recorder, has been arrested for alleged padding of the pay rolls of the city street department. Shortages also are said to have been found in the accounts of other city departments which were under her supervision. Mrs. Holland, it is said, has agreed to reimburse the city for her alleged shortages and will not be prosecuted. She is a widow and the mother of two children.

Foils A Foul Plot

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of stomach, liver and bowels, and restore your health and all good feelings. 25c at all druggists.—Advertisement.

Economy assured by using Olive Milling Co.'s specially prepared combination mixed feed—ground barley, cracked corn and wheat shorts. Only \$1.35 for 80 lb. full weight sack.

JEWISH FOLK WILL HAVE ASSISTANCE

800 Jews in Los Angeles Form Association for Relief of Consumptives

LOS ANGELES, Jan. 8.—With an aim to bring relief to Jewish sufferers who come to California, 800 Jewish people of Los Angeles have effected an organization known as the National Relief association of Southern California and are planning a crusade in the interests and for the welfare of humanity.

Three months of activity already has made possible an organization which gives promise of developing into a great charitable institution. A movement is under way for the location, construction and operation of a sanatorium which in fitness and equipment will rival the most noted institutions of its kind in the west. It will accommodate about 200 inmates and probably will be ready for occupancy in a few weeks.

The sanatorium will be a poor man's haven. Although the expense will be shouldered entirely by the Jewish people for the welfare of dependent Hebrews of this country, gentiles will not be turned away. It will be conducted on a non-sectarian basis.

There will be no expenses to inmates. The expense will be met by the treasury of the new association, and this will be made possible by means of contributions and membership dues.

The National Jewish Consumptive Relief association is supported by many of the foremost Jewish citizens. Working with the association are three women's auxiliaries of nearly 100 membership each.

FREAR WILL LOSE JOB AS GOVERNOR OF HAWAII

HONOLULU, Jan. 8.—Supporters of Gov. Walter Frear, whose reappointment was recently sent to the Senate by President Taft, conceded yesterday that it will not be confirmed. They are advised that President-elect Wilson will in all probability appoint a Democrat.

Gov. Frear's administration was recently the subject of investigation by Secretary Fisher of the Department of the Interior. The Secretary found much to criticize in the economic, political and social condition of the islands, but nothing specifically to be attributed to Gov. Frear.

Several Democratic candidates are already actively in the field for the nomination.

The Problem So ved—Use mixed feed—good for horses or poultry. Only \$1.35 per 80 lb. sack. Ask your dealer about it. OLIVE MILLS.

PROBERS AFTER COAST CONCERN

Probe California Petroleum Co. Stock Manipulation; Tariffs Discussed

WASHINGTON, Jan. 8.—Manipulation of the stock of the California Petroleum Company occupied the attention of the House money trust investigators yesterday. C. C. Henry, a New York broker, testified that seventeen and a half million of the company's stock had been floated, the physical assets of the company representing a cash expenditure of only \$8,000,000. He said twenty-four bank officers subscribed \$500,000 worth of promotion syndicate stock, receiving "presents" of \$50,000 in profits without receiving a single share of stock. He testified that four brokers manufactured a "market" on the New York exchange. He refused to tell their names.

Discusses Tariffs
WASHINGTON, Jan. 8.—The House ways and means committee today resumed hearings, preparing for tariff revision work of the next Congress. Schedule A, dealing with oils, acids and salts, was discussed. Representatives of dealers in these commodities from Los Angeles, San Francisco, New York and Chicago were present.

Crookshank-Beatty Co.

A reduction to 8 cents per kilowatt hour varying according to the monthly consumption, dropping to a minimum of 3 cents per kilowatt hour for electricity is the New Year's greeting which the Southern California Edison Co. has extended to its consumers in Santa Ana. Free renewals of the Gem metalized filament lamps will continue as heretofore, notwithstanding the big cut in rate.

"This reduction is in line with the policy laid down by the Company some years ago" said Local Manager W. L. Deimling today. "This is another of the gradual and voluntary decreases in rate which we are able to make as business develops. The City of Santa Ana is supplied from the big Edison system, which operates in many towns and cities and rural communities of Southern California. This is the reason that our community can be supplied with electricity at rates far lower than would be possible if it depended upon a local plant. Nearly 100,000 consumers are supplied by the Southern California Edison service and because Santa Ana is a part of this 100,000, it shares in the great advantages which come from being a part of the big organization.

"I hope that this generous reduction will increase the use of electric appliances for household purposes. They give invariable satisfaction and go far towards reducing the drudgery of Domestic work."

YUMA AIDS IN PLAN FOR JOINT HIGHWAY

Unites With San Diego, Forming Auxiliary to Boost San Diego-Arizona Highway

EL CENTRO, Jan. 8.—The San Diego-Arizona auxiliary of the Southern Ocean-to-Ocean Highway association was organized this week at Yuma, Ariz. Officers are: Ed. Fletcher of San Diego, president; C. H. Akers of Phoenix, vice president; W. B. Gross of San Diego, secretary.

County organizers were appointed for each of the seven counties represented at the conference, as follows: Fred Jackson, San Diego county; D. H. Williams, Imperial county, which were the only California counties represented; F. E. Elliott, Yuma; L. B. Orme, Maricopa; J. J. Keegan, Gila; R. S. Smith, Graham; Judge J. J. O'Connor, Pima.

ERA OF ELECTRIC RAILWAYS BEGUN

U. S. Permits Power Company to Aid in Electrification of Leading Railroad

WASHINGTON, Jan. 8.—What Secretary Fisher believes to be the beginning of the electrification of all transcontinental railroads was marked today by a grant to the Great Falls (Mont.) Power Company to transmit over public domain under strict government regulations power for the electrification of 450 miles of track on the main line of the Chicago, Milwaukee and Puget Sound railroad between Harlowton, Mont., and Ivory, Idaho.

The grant, which is for fifty years, was worked out under the act of March 4, 1911, relating to electrical transmission, telephone and telegraph lines. Secretary Fisher said it should be a "precedent which will have far-reaching effect."

This grant is subject to readjustment every ten years, provides for regulation of rates and service and the sale of power to the United States, the state and cities at as low a rate as is given any buyer, and prohibits the transfer of the permit without the approval of the secretary of the interior.

Drives Off A Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and \$1.00. Trial bottle free at all druggists.—Advertisement.

ORANGE WAREHOUSE PLAN DISCUSSED

Porterville May Build Neighborhood Structures for the Caring of Fruit

PORTERVILLE, Jan. 8.—Plans for warehousing early oranges for the purpose of taking advantage of the best market are now being discussed by a number of leading growers and there is every prospect that a practical means of caring for the early crop in this way will be worked out.

J. F. Vanty, a pioneer orchardist of this section, proposes that associations be formed among neighbors, and that structures be built to accommodate, say twenty-five cars of fruit. Markets can then be watched and fruit shipped at any time.

Tests have been made of the early navels from this district, and it has been shown they will keep perfectly for six months after picking.

STOMACH GONE BAD SOUR, GASSY, UPSET?

When "Pape's Diapepsin" Gets in Stomach All Indigestion Goes

Time it! In five minutes stomach distress will go. No indigestion, heartburn, soreness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain remedy in the whole world and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know now it is needless to have a bad stomach.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Diapepsin belongs in your home anyway. It should be kept handy, should one of the family eat something which doesn't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night it is there to give the quickest, surest relief known.—Advertisement.

COMPOSER OF 'QUEEN ESTHER' DIES HERE

Prof. Richard Watson Seager, 82, Musician of Renown, Ill Only Few Weeks

Los Angeles Examiner: Prof. Richard Watson Seager, 82, composer of the cantata "Queen Esther," and a musician of national renown, died yesterday at the home of his son, F. W. Seager, 117 East Thirty-fifth street, following an illness of only a few weeks. Seager came to California about nine years ago.

He was born in Byron, N. Y., where his father, Micah Seager, well known as a Methodist preacher, became later one of the founders of Syracuse University. Richard Seager developed a strong liking for music and rose to be a singer and director of note, being prominently identified with the great choral organizations and musical festivals of early days. He was a close friend of Theodore Thomas, Colonel Mapleson and many others famous in the realm of music then, and even now is remembered by many people in Southern California who were associated with him at a later period.

Prof. Seager's greatest achievement was "Queen Esther," which he collaborated with William B. Bradbury, in Boston, Mass., more than a half century ago, and which has been sung all over the world. Seager also composed a number of other pieces, including some songs. He sang for a time with Phillip Phillips, the noted evangelist, organized the original Schubert quartet and assisted Theodore Thomas at the great Boston jubilee forty years ago.

He is survived by a son, F. W. Seager, and a daughter, Mrs. Nellie Lloyd, both of Los Angeles.

The funeral services took place at the undertaking parlors of Cunningham & O'Connor, 1031 South Grand avenue, at 2 o'clock this afternoon.

Could Shout For Joy

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism, Electric Bitters have no superior. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at all druggists.—Advertisement.

JUDGE ARCHBALD CASE CONCLUDED

Fate of Commerce Court Judge Will Be Made Known on Saturday Next

WASHINGTON, Jan. 8.—Robert W. Archbald, judge of the commerce court, now being tried by the senate on articles of impeachment, will know his fate before sunset Saturday. The recording of votes will begin at 1 o'clock. A separate vote must be taken on each of the thirteen articles. Nearly two hours will be consumed in the process.

All indications point to the impeachment of Judge Archbald. The vote is expected to stand approximately twenty for Archbald and sixty against him.

Fifteen hours have been allowed for arguments, divided equally between the two sides. Representative Sterling will open tomorrow for the house managers. Representatives Clayton, Webb, Floyd and Norris will speak later. Mr. Worthington and Mr. Simpson will argue for the respondent.

The Archbald trial was formally concluded at 5:30 yesterday afternoon. All the witnesses summoned on each side were discharged. The record was completed. The house managers and counsel for Judge Archbald announced that they rested.

FOR FINANCING OF CHINESE REPUBLIC

American Delegated by Chinese Heads to Raise Millions for Development

SAN FRANCISCO, Jan. 8.—On a mission to raise in the United States millions of dollars for the financial relief of the new republic of China, Guilford A. F. Bidwell arrived yesterday on the Pacific Mail liner China from Shanghai.

Bidwell asserts that he has been delegated by President Yuan Shi Kai and Dr. Sun Yat Sen to negotiate with American capitalists to invest in the great natural resources of China. He further says the preliminaries of the negotiations have been arranged in advance and he hopes to close several colossal deals in the United States that will go a long way toward the accumulation of the \$66,000,000 which the new government sought under the six nation loan plan.

Bidwell says Dr. Sun has temporarily abandoned his plan of coming to the United States for a conference with railroad men.

We are showing a splendid line of bungalow nets for curtains. All the new designs including shadow drapes, at 25c to \$1.25 per yard. The most artistic, the cheapest, and best curtain. Horton-Spurgeon Furniture Co. Corner Fourth and Spurgeon Sts.

MORGAN DEPOSITS IN BANKS ON NOV. 1 WERE OVER \$162,000,000

Revelation Stuns Pujo Probers—Money King Markets \$2,000,000,000 Securities Since 1902—Profits Unknown

WASHINGTON, Jan. 8.—J. Pierpont Morgan had on deposit November 1 last in his New York and Philadelphia banking houses more than \$162,000,000 awaiting investment by him in any new enterprise that he might decide would be profitable.

In addition to this vast sum of ready money, he had at his command the reserve resources of nearly seventy of the greatest railroads and industrial concerns in the United States, on all of which his associates were members of the directing boards and for most of which either his New York banking house or Drexel & Co., Philadelphia, which he controls, acts as depositaries.

The stupendous character of Mr. Morgan's financial operations and his world-wide influence staggered the Pujo money trust investigating committee yesterday when presented in concrete tabular form by J. Pierpont Morgan & Co., at the demand of the committee Samuel Undermeyer read a statement in the record, while spectators sat in amazed silence.

Since 1902 Mr. Morgan has marketed a total of more than \$2,000,000,000 securities of American interstate corporations, the wealth of this country taking up \$1,914,000,000. He did not submit a statement of his profits in these transactions.

Letter From G. L. Dodds On "Things in General"

Editor Register:—We are conscious that we are well informed of the transactions in and about Santa Ana since we left that charming city in June last, through the medium of the Register. Orange county is surely making history, and you are faithfully recording it in the pages of the Register.

We are like the French gentleman with the charming manners, who never says he is delighted; always says, "I am satisfied." We are satisfied with the progressive development of county and city down by the sea.

We are impressed with some of the really great things that have been accomplished by the intelligent direction, and vote of the people; the good roads provided for, erection of buildings for education purposes, the paving and beautifying of the city, the county farm and hospital. We regret the failure of the charter.

We have had a most interesting time in some of the canyons of our western provinces from a geological and archaeological standpoint, and have unearthed many interesting fossils. When in the Southwest we saw indications of fossils, and would like

to be present when the subway is being excavated. It should be about time to begin work on the death-trap that is being maintained for so long a time; we are interested, the city of Santa Ana is interested. When we left your city for the Northland, we had arranged with the engineering departments of the three systems to have their engineers meet the Santa Ana city engineer, and make plans and an estimate of the cost, to be submitted to the presidents of the roads and to the city trustees. Has this been done?

We are glad that the Orange people have succeeded in their efforts to secure better transportation, and never could understand why Tustin should be isolated by having transportation chopped off at the Santa Fe crossing in Santa Ana.

We hope the day is not far distant when the Pacific Electric will parallel the state highway through Tustin, Irvine, San Juan Capistrano and San Diego down by the sea.

Wishing the people of the favored land a bright and prosperous year, Sincerely yours, G. L. DODDS.

Winnipeg, Man., Jan. 1, 1913.

U.S. PARCELS POST MAIL SERVICE HAS AERIAL CARRIER

BOSTON, Jan. 8.—The first fast "fly," so to speak, in postal parlance, of an aeroplane machine carrying parcel post mail was arranged by Postmaster Edward C. Mansfield yesterday, when Harry M. Jones, the aviator, was sworn in as one of Uncle Sam's letter carriers to carry by "air line" twenty-five pounds of mail between Boston and New York.

Jones started this morning at 8 o'clock, and proceeded to Providence, his first stop. There he delivered a package. His next stop will be New

THE STATE.

What constitutes a state?
Not high raised battlement or
labored mound.
Thick wall or moated gate;
Not cities fair, with spires and
turrets crown'd.
No; men—high minded men—
With powers as far above dull
brutes endued
In forest, brake or den,
As beasts excel cold rocks and
brambles rude;
Men who their duties know,
But know their rights and
knowing dare maintain;
Prevent the long aimed blow
And crush the tyrant while
they rend the chain.

—Alcaeus.

BE OF GOOD CHEER

There is absolutely no reason for Santa Ana as a community feeling blue or discouraged over the freeze. Of course there has been a heavy loss to the citrus fruit growers of Orange county, and a considerable loss to vegetable growers. To a very limited extent these losses may be felt by the entire community. But on the whole the losses are not of sufficient magnitude to cause financial or business disaster either to individual or to community.

This is true of Southern California as a whole, but it is especially true of Orange county. In this county the loss to citrus fruit growers is proportionately less than that of any other section devoted largely to the citrus fruits industry, and that industry in this county is proportionately a smaller part of the whole productive resources than it is in most of other sections. In other words Orange county grows a greater variety of crops on a large scale than any other county in the state.

But aside from any comparison or relative condition, it is true, not only of Orange county but of most sections directly affected by the injury to citrus fruits, that the net ill effect of the losses on business and development will be much less than is likely to be feared at this time. In fact the greatest ill effect will be due to unwarranted pessimistic feeling and to foolish and almost criminal pessimistic talk—provided, of course, that such feeling and talk are indulged in to any considerable extent.

A very large majority of the growers who have sustained losses are able to sustain them without radical change in their manner of living. A few may give up contemplated trips east or to Europe, or "cut out" next summer's vacation. Here and there a man may put off buying that automobile until next year. But nine families out of ten will continue to wear as good clothes and eat as good food and have as good a time as ever.

On the whole the community will simply add a little less to its surplus this year. Here and there an individual may absorb some of his surplus or even overdraw his surplus account. But any serious effect on the progress and prosperity of the community is not to be feared in the least. Theoretically a serious crop loss seems to be purely a matter of mathematics, but practically it isn't merely that. As in all things else, psychology enters here. Economic laws have great powers of balance. Human nature and the physical universe have almost unlimited powers of readjustment and resilience. How often have we thought disaster was impending, moral or physical, only to wonder, after a time, how it was averted. God or Nature alone knows.

All we have to do to secure our well-being is to go right along with a smile and a song, doing an honest day's work every day, learning well each lesson of life as it is taught, and trusting implicitly in an All-Wise and Ever-Beneficent Providence.

Gov. Mann's prompt action in ordering a negro prisoner protected from a Virginia mob at any cost indicates that the Rev. Cole Blease didn't make any converts at Richmond.

Col. Roosevelt may yet be tempted to take a few college professorships in addition to a directorship of physical culture.

We have our opinion of any woman who would give her husband a snow shovel for Christmas.

What the country appears to need now is a commission to investigate commissions.

However, Haman's gibbet is not likely to become as popular as the Ananias Club.

ANOTHER STORM IS
DUE JAN. 10-13, SAYS
OBSERVATORY HEAD

SANTA CLARA, Cal., Jan. 8.—The Rev. J. S. Ricard of the observatory of the University of Santa Clara gave out the following last night:
"The group of December 12, 1912, is in evidence again on the eastern limb of the sun in latitude 4 degs. east and longitude 70 degs. from central meridian."
"On the same group we had calculated the storm in the north of January 3, whose cold wave in combination with the low pressure in the south from January 2 upward has written such an indelible page in the history of California, the last depression of our stormy period, January 3 to 7, is crossing via north. The next disturbance is to occur January 10 to 13."

FOUND NEW LAND IN
ANTARCTIC CIRCLE

Lieut. Wilhelm Filchner Back From 15 Months' Search of Southern Seas

BERLIN, Jan. 8.—Lieutenant Wilhelm Filchner, the German Antarctic explorer, returned with his expedition yesterday to Buenos Ayres after an absence of fifteen months in the southern seas.
Lieutenant Filchner cables that the expedition was most successful. He discovered new land which he named Prince Regent Luitpold Land and also an ice barrier, which he named Kaiser Wilhelm the Second. The lieutenant proposes to continue his explorations.
It was not Lieutenant Filchner's intention to attempt to reach the south pole.

CONGRESSMAN SMITH
IS SLIGHTLY BETTER

BAKERSFIELD, Jan. 8.—After a serious setback about a month ago, the condition of Congressman S. C. Smith of the Eighth California district, who is at his Hollywood home, is slowly improving.
Before the setback he was able to walk about the house and to take a short automobile ride occasionally. He has not got back to this point as yet, and while he sits up for a time each day, he has to be assisted when he walks.

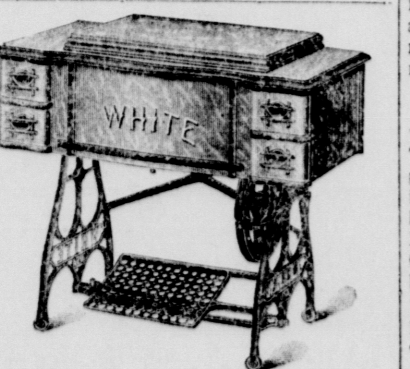

However, he is gaining in strength each day and retains the patient grit and good courage that have helped him so long in his tedious illness. Smith reads all his important correspondence and dictates replies and is able to keep well up with matters in congress affecting his district. He says he is assured that the Bakersfield postoffice will be taken care of in the next public building bill, and friends at Washington are looking after other matters in which he is especially interested.

PORTLAND PLANS
PERMANENT EXHIBIT
AT SAN DIEGO FAIR

PORTLAND, Ore., Jan. 8.—The movement for a special appropriation from the legislature to establish a permanent exhibit to represent Oregon at the Panama-California Exposition in San Diego, was endorsed by the board of trustees of the Portland Chamber of Commerce in its meeting yesterday. This action is the part of the Chamber of Commerce, although independent of the campaign of the Royal Rosarians, who recently visited San Diego and pledged themselves to such movement, will have a similar effect, and is probably the forerunner of similar action on the part of many other commercial organizations in Portland and other cities of Oregon.

FATHER GALLAGHER
RENOUNCES VOWS
OF PRIEST—WEDS

LOUISVILLE, Ky., Jan. 8.—Until two weeks ago Father Gallagher was assistant rector at the Cathedral of the Assumption here. Miss Constance Layer lived at No. 124 Hite avenue. A short time ago Father Gallagher informed Mrs. Layer that he loved her daughter and wanted to marry her and said even if they were not married, he would leave the church. Mrs. Layer consented and the trip to St. Louis, where the two were married, followed. Gallagher is a pulpiter of note. He is 35 years old and Miss Layer is 23 years old. She was formerly chief night surgical nurse at the city hospital. Father Gallagher had made no announcement of his purpose to his congregation or brother priests.

NOT FREEZING BUT THAWING
DOES HARM, SAYS EXPERT

FROM THE SAN BERNARDINO SUN.

"You will be astonished at the amount of good fruit that will be shipped from this valley," declared Robert J. Smith of Los Angeles, at the Stewart last night, after a day put in investigating conditions in orchards scattered through a 30-mile swing around the valley. Smith is the representative of the Bradley fertilizer people, and considerable of an expert, for his business has compelled him to study citrus fruit for many years.

"This will demonstrate the truth of Powell's theory that it is not the freezing, but the thawing of the fruit that does the harm. No question about the freeze. It was so cold that, measured by all former experiences, citrus fruit could not stand it and would be ruined. But Southern California never had a frost before that was followed by such cold days as yesterday and today. I have been in many orchards today. I have cut fruit, tested it in every way, examined it under the glass and have yet to find an orange in which the juice cells were broken, and if these are not broken, then the fruit will ship, it is good, and it will be demonstrated that the loss is much less than had been feared."

CALIFORNIA POSSESSES TOO
MANY RESOURCES TO BE DOWN-
CAST OVER RECENT FROST

The Los Angeles Tribune thus reports the gospel of cheer of Frank Wiggins, the California apostle of optimism who in an interview of the freeze and its results spoke from a heart of courage, reinforced by an impressive array of figures showing the reserve resources of the Golden State:

"Frost? Why, I'm laughing at it!" Thus declared Frank Wiggins, secretary of the chamber of commerce, yesterday.
"And I'm going to chuckle some more. Why, we have \$22,000,000 worth of citrus fruit and \$34,000,000 worth of other products to sell."
"Won't that bring a little grin? What if it did freeze some? We can rest easy if it freezes again. It takes more than a little cold weather to put Southern California down and out."

"Why, I have figures here that will stagger you. Talk about Southern California being affected! Maybe it is to some extent; but look what we have left."
That's how Mr. Wiggins answered callers who dropped in to see how the crops are faring during the cold weather. If they arrived in the office looking glum they went out with a smile. And Mr. Wiggins produced real figures that made that smile real thing.

"\$22,000,000 Worth of Fruit Saved"
"You talk about crops being caught with the frost," said Mr. Wiggins. "Look here what has gone into the granaries and into the markets during the past season. Look here what has been saved in the citrus districts. Bless your soul, they have saved \$22,000,000 worth of citrus fruits. And besides the amount of citrus fruits there is \$34,000,000 worth of other products that the frost has never caught and never will catch."

"With the coming of a few warm days, these crops will come again, and they will come in greater quantities than ever." Here he paused for breath.

"Look at this list," he continued. "Here are a few items I have been able to compile today during the rush of casting up a year's business. Listen; it is good reading."

"The hay crop of Southern California for the year has been more than \$4,000,000. The bean crop alone has brought more than \$5,000,000 into the hands of the growers. Our manufacturers have sent broadcast throughout the land \$2,000,000 worth of canned goods."

"\$2,000,000 in Eggs"
"Our poultry ranches have produced more than \$2,000,000 worth of eggs, to say nothing of the poultry,"

ASK A SQUARE
DEAL FOR THE
GROWERS

John Andreson Says the Fruit
Should be Inspected Before
Shipment, If at All

It is rumored that government inspectors have been through the orange growing sections of Southern California, including this county. Concerning the government's activity, a San Bernardino paper has the following:

"If the government is going to make any attempt at regulating the marketing of fruit this winter, in fairness to the growers, it should place an inspector in every packing house and pass on the fruit before the growers have gone to the expense of packing and shipping the fruit across the continent before finding out whether it is condition to be marketed," said John Andreson last night in discussing the rumor that already government inspectors are making a circuit of the fruit districts.

"It is not fair to permit the growers to pack what they believe is good fruit, ship it across the country, and then to have the government inspectors arbitrarily dump it out and thus throw a total loss on the grower and shipper when in all probability he was acting in absolute good faith," continued Mr. Andreson.

"If the matter is going to be taken up by the government, the fruit should be inspected in the grove or packing house, and passed upon at that time, before the heavy expense has been incurred by the grower. And when the fruit is passed on at the packing house by an inspector, it should not be interfered with afterward unless there be the best of reasons. The certificate of the packing house inspector should be accepted anywhere in the land that the fruit is free from frost."

"This system is followed out with the meat packers and in all fairness it should be done with the fruit growers, if the fruit is to be subjected to inspection at all."

The rumor was yesterday being persistently circulated that stringent measures were going to be inaugurated by the government to prevent the marketing of damaged fruit, though it could not be traced to any definite source.

WOODMEN GALA NIGHT

Initiated Large Class and Made Merry With Feasting and the Dance

Disregarding the frigid weather and the recent "freeze," Santa Ana Camp of the Woodmen of the World held a log rolling last night at camp headquarters here. The hall was packed with local members and visitors from Los Angeles, San Bernardino, Fullerton, Anaheim and Orange. There were forty neighbors present from Camp 402 of the Angel City. A degree team from the Los Angeles camp conducted the initiation of a class of twenty new members. The work was done most efficiently and was followed by stirring talks from officers of Camp 402 including H. R. Werry, past consul commander; D. F. Ross, adviser lieutenant; Harry Robson, banker; W. J. Gibbs, escort; J. Kreiger, watchman; H. C. Stubbe, captain of degree team; Neighbor Harrington, clerk.

The evening's business session was presided over by W. O. Codling, past consul commander of the local camp. Following the business session, a jolly time was enjoyed by the Woodmen at a "Dutch Lunch" served in the banquet room in fine style by the wives of the Woodmen. Dancing was indulged in after the "eat" and the gaiety was kept up to a late hour.

The Woodmen of the World are justly proud of the social and insurance advantages of their order and the local camp does its part in maintaining the splendid reputation of the order. They will pay special attention to the social phase of their camp life, and were greatly encouraged in this respect by the large and interested attendance of last night.

Meeting of Auto Club

A regular meeting of the Santa Ana Auto Club will be held at the city hall tonight at 7:30 o'clock.

Returns From Argentine

Rev. H. Koepsel of 1501 Bush street has returned from an extended visit to his daughter in Buenos Aires, Argentine Republic. The trip was made along the east coast by way of Brazil and on his return he crossed the Andes and embarked at Valparaiso, Chile, and came up the west coast of South America to Panama and from Panama to New Orleans and thence to Santa Ana by way of the Southern Pacific.

P.T. Meeting

The Parent-Teachers' Association of McKinley school will hold its regular monthly meeting at the McKinley school building on West Third street, on Thursday afternoon, Jan. 9, at 3 o'clock. It is hoped the usual large attendance will be present, and all interested friends are most cordially invited.

The following interesting and entertaining program has been prepared:

Violin and Piano Trio—Blanche Hill, Glenogene Hill, Hillard Tyrrell.

Recitation—Helen Gray.

"Nazareth"—Eighth grade girls.

Recitation—Glaphry Anderson.

Piano Solo—Blanche Hill.

Recitation—Hazel Hamilton.

Quartet—Boys.

Five-minute talks by Mrs. Denton and Mrs. Hardy, followed by general open discussion.

Birthday Party

Friday, Jan. 3, marking his eighth birthday anniversary, many little friends gathered at the home of George Sackman on West Fourth

street, after school hours, to help him celebrate the event. They played croquet on the lawn and had their pictures taken and then, best of all, were called in and given "something to eat." Each was given a pretty candy heart and a bag of bon-bons to take home.

All declared they had a "dandy" time and went away wishing little George many more such happy days. He was the recipient of many pretty tokens and was very truly a happy youngster.

MICHIGAN PICNIC

Birch Park Was Scene of Festive Gathering Yesterday of Wolverines

The loyal sons and daughters of good old Michigan gathered by scores yesterday in an all day picnic at Birch Park. The pretty park, owing to the trees enclosing it and the warm sunshine that flooded it an hour or so before noon, was comfortable in temperature and as the picnickers gathered shortly before noon, they were greatly delighted to find the place balmy and pleasant.

A basket dinner was soon spread on long tables draped with snowy linen, and the delicious eatables with hot coffee made a real banquet for the Wolverines. Before the afternoon was over a very large number of Michigan people had found new acquaintances and renewed old ones. Old songs were sung lauding Michigan and copies of an ode written by Chas. S. Shaw were distributed and sang heartily to a familiar tune. A sample verse and chorus follow:

O Michigan, so vast and wide,
Our good old state in you we pride.
The loveliest girl—the nicest boys
That ever filled a home with joys.
Oh Michigan, we'll think of thee
However far apart we be
But Kalamazoo or Algonac
Can never, never win us back.

Chorus—
Oh Michigan, my Michigan!
We'd rather live on buckwheat bran
Than be compelled to ever go,
And stand your cold and frost and snow.

Oh Michigan, for you we pray
But never will go back to stay.
Dr. A. B. Lull was acclaimed winner of the best verse written on Michigan. H. E. Finster sang a song praising the thrifty state, and Mrs. Mary Wells, the oldest member of the Michigan Association, gave reminiscences of early days in Michigan. The singing of Mr. Shaw's ode was led by Prof. F. J. Haynes.

101 new names were added to the membership roll, the roster now reaching 221, including honorary members.

Resolutions of thanks were passed to Mr. and Mrs. Chas. Shaw, to Mrs. Hogg, and to the Register for courtesies. The next meeting of the association will be on the first Tuesday in July.

The following were elected as the new officers: President, Chas. S. Shaw; vice president, Mrs. Minnie M. Wilson; secretary, Mrs. J. R. Wilcox; treasurer, Albert D. Casey; historian, Mrs. M. E. Shaw. Chairman of refreshment committee, Mrs. J. N. Bradford; program, Mr. Wilson; entertainment, Mrs. Wilson; music, F. J. Haynes.

IMPORTANT LECTURE FOR ORANGE GROWERS

Prof. C. W. Woodworth will give a demonstration of the causes of burning from fumigation, Thursday at 2 p.m., at the Rochester Hotel in Orange. This will be based on recent experiments. All interested in this work are cordially invited. Prof. Woodworth is head of the entomological department at the University of California.

SAN BERNARDINO PROCEEDS WITH PLANS FOR ORANGE SHOW

SAN BERNARDINO, Jan. 8.—The recent weather conditions in the citrus sections of Southern California will have no effect on the third national orange show, which will be held in San Bernardino the week of February 17 to 23, and in reports filed with the executive committee which met last night, no reservations of space are withdrawn and every section of the state will be represented with exhibits at the coming exposition. Preparations for the show will go ahead with renewed energy. There is an abundance of fruit for making the show a great success and the plans will in no manner be altered or affected by the adverse weather.

Too Late to Classify

FOR SALE—Good walnut wood, foot long, delivered. Home 565, J. W. McNeil.

BIDS FAR OVER AVAILABLE FUNDS

(CONTINUED FROM PAGE ONE)

422; cafeteria, \$17,271; manual arts, \$53,378; fine arts, \$48,372.

Bids on electric work were:

Southern California Electric Co., Los Angeles, \$6,405. American Electric Co., Los Angeles, \$4,545. Newberry-Bendheim Electric Co., Los Angeles, \$5,827. Robertson & Packard Electric Co., Santa Ana, \$3,653.32. T. W. Neely, Santa Ana, \$4,180.

Bids on plumbing were:

Guercio Bros., Los Angeles, \$23,664. F. P. Nickey Hardware Co., Santa Ana, \$21,000. W. D. Newell Plumbing Co., Los Angeles, \$16,973. S. Hill & Son, Santa Ana, \$17,234.65.

For painting—F. H. McElree Santa Ana, \$11,000. Wormell & Drawbaugh, Pasadena, \$7,113.

For heating and ventilating—American Heating Co., Los Angeles, \$30,080. Machinery & Electrical Co., Los Angeles, \$17,983. B. F. Hulse, Los Angeles, \$24,968.

For program clock and bells—Southern California Electric Co., Los Angeles, \$1,665. E. T. Winship, Los Angeles, \$1,979. L. R. Bedell, Los Angeles, \$1,285.

For an hour the five members of the school board discussed the situation. It was suggested that one of the buildings might be left out at the present time to be built later.

The suggestion that the cafeteria be left out was made, but Superintendent Cranston and Principal McMath insisted that the cafeteria be not the building put up for sacrifice. Even reducing its cost \$13,400 being the lowest bid, the dilemma would not be solved by about \$30,000 or \$35,000.

The next suggestion was to leave out the fine arts building, the lowest bid for which was \$36,000, and conduct some of the school work, including the commercial, in the present high school buildings. They came the suggestion that the auditorium be stricken from the administration building. The architects were instructed to make an estimate of how much that would reduce the total cost of the buildings, and the bids were taken under advisement until Friday evening of this week. Architect Withey, who was present, pointed out that even with the auditorium off, the excess thousands of dollars would not be removed.

The school board are considering the various phases of the situation. Investigation may show that a change in the kind of building material may result in lessening the cost. The buildings as now proposed are of brick faced with cement.

Don't Like Floor

W. S. Decker, the school board's superintendent in the building of Spurgeon grammar school, stated that Contractor A. C. Black had finished the job according to specifications, and recommended that the bid be accepted. Mrs. Smart stated that she was not satisfied with the painting, done by a sub-contractor, for the reason that the floors had been badly spotted with stain. Decker said the painter thought the floors were to be covered with cork carpet and it would make no difference if they were spotted. It was then stated that the board had expected to use the floors for a year or two before putting down the carpet. It was decided to go to the school today and look it over before taking action upon its acceptance.

U. S. PRESENTS HERD OF ELK TO STATE

Two Carloads of Antlered Beasts to Be Liberated Soon in Shasta County

REDDING, Cal., Jan. 8.—A telegram has been received here from Livingston, Mont., that two carloads of elk left there Monday bound for Shasta county. They were in charge of two men sent there from here by the Redding lodge of Elks. The animals are a gift from the Yellowstone National Park. They will arrive by the end of the week and will be liberated at Windrop, where they will be at home on their range between the McCloud and Pitt rivers.

TULARE SECTION FIGHTS BUILDING OF STEEL TOWERS

TULARE, Jan. 8.—Practically all the ranchers of the Woodville dairy district have signed an agreement to unite in opposition to the Pacific Light and Power Company of Los Angeles in its attempt to construct a line of steel towers through valuable alfalfa lands belonging to members of the organization.

The company is locating a power line from Big Creek to the south and, to carry the high-tension wires, will use towers twenty feet square at the base. To save distance the towers are to be located, says the company, on the shortest lines. It has offered, it is said, \$20 for an easement to the land which each tower will occupy. As these structures frequently run through property at most inconvenient points the ranchers say that their presence damages their land beyond any hope of compensation.

Lawyers employed by the association will fight to compel the company to locate its lines along the county roads.

TWO LEGISLATURES CONVENED TO-DAY

Many Progressives In Illinois Deadlock Expected In South Dakota

SPRINGFIELD, Ill., Jan. 8.—The state legislature opened at noon today. It will elect two senators. It contains more progressives than any other of the legislatures except that of California.

South Dakota Solons Convene

PIERRE, S. D., Jan. 8.—With a senatorial deadlock expected, the state legislature convened today.

BOXING BILL FAVORABLY EXPECTED BY COLORADO

DENVER, Jan. 8.—A duplicate of New York's Fawley boxing bill legalizing ten-round no-decision contests will be introduced into the Colorado legislature. It is expected to pass.

PACKING-HOUSE IS TO BE BUILT AT VILLA PARK

The Central Lemon Growers Association is to build a packing house at Villa Park. The association has purchased two acres of land off the west side of the McCloud ranch at Villa Park and adjoining the S. P. railway property. Plans for a building are about completed and work will soon commence on the building. Mr. E. L. Gilman, who has been in the employ of the association as secretary and manager since its organization, has tendered his resignation.

Mr. C. W. Eastin, for several years assistant manager of the San Dimas Lemon Association, is to succeed Mr. Gilman. The board of directors feel that they have been very fortunate in securing Mr. Eastin as he has a thorough knowledge of the lemon industry obtained through years of experience with the largest lemon association in the state.

MANY JAPANESE MARRY IN 'FRISCO

One Seventh of Weddings in That City Among Subjects of Flowery Kingdom

SACRAMENTO, Jan. 8.—One-seventh of all the marriages in San Francisco are between Japanese subjects, according to George Leslie, statistician of the State Board of Health. During the year 1912 San Francisco had 6,102 marriages and of this number 867 brides were of Japanese nationality, or 14.2 per cent. For 1911 the proportion of Japanese brides was only about one-tenth, the total number of brides being 5,226, of which 553, or 10.6 per cent, were from the Flowery Kingdom. Many of the Japanese brides are said to be recently arrived "picture brides," who are married American fashions.

BOARD OF SUPERVISORS

CLOSSON GETS INSPECTORSHIP

Dr. John Wehrly Re-appointed County Physician by Unanimous Vote of Board

County Vet Only Change—E. A. Chaffee Gets New Job as Farm Superintendent

The Board of Supervisors this morning quickly disposed of its appointments. All of the old officials were reappointed, except the stock inspector. Dr. G. W. Closson of Anaheim was named to take the place of Dr. W. S. McFarlane. The talk of opposition to Dr. John Wehrly for the appointment as county physician did not develop, probably for the reason that Dr. Hassan of Buena Park, who was here yesterday looking over the ground, failed to get enough encouragement to warrant an application.

The county physician's appointment was the first taken up. Dr. Wehrly was appointed for the two-year term by motion, the vote being unanimous.

Three applications for the appointment of stock inspector were received. They were from Drs. W. H. O. Mantor and F. C. Wright of Santa Ana, and G. W. Closson of Anaheim. The count of the vote, which was by ballot, showed Dr. Closson 3, Dr. Wright 1 and Dr. Freeman of Santa Ana 1.

On motion the following were reappointed: J. E. Pleasants of Santiago canyon, bee inspector; A. B. Tiffany of Orange, custodian of the county park; J. R. McMurdo of Santa Ana, steward of the county hospital; J. H. Sturgeon, gardener at the courthouse; G. M. Benedict, janitor at the courthouse.

The New Job

Two applications were received for the position of superintendent of the county poor farm. This is a new position. The applicants were E. S. Jewett of Santa Ana and E. A. Chaffee of Garden Grove. On ballot, Chaffee got five votes. His salary was fixed at \$90 per month.

Ed. Adkinson of Trabuco was re-

Try our Sealshipt Oysters, direct from New York and Connecticut.

Nice large fat oysters, 25c a dozen, 50c a pint. One pint of these oysters is equal to one quart of any other oyster on the market. You get nothing but the clear meat, no ice or water ever touches these oysters. Call us up and try a pint. We'll deliver to any part of the city.

Gem Market

appointed county fire warden.

Want Park Improved

L. L. Shaw as a committeeman from the Santa Ana Chamber of Commerce petitioned the board to take action to improve the County Park. Shaw suggested as desirable changes that the keeper's lodge be moved to some place not conspicuous. He said that at present the chicken-yard and other out buildings prove unsightly and are at the entrance to the park. Shaw said a stone fence around the park would improve the looks. He thought many fine drives and trails could be established. He said a landscape gardener ought to be employed to fix the park up in good shape. He said he thought James Irvine, who donated the park to the county, was never satisfied with the county's lack of enterprise in improving the park.

Supervisor Smith said the board had an appropriation of several thousand dollars to be expended in the park this year.

Supervisor Struck said that he had talked with a number of representatives of the water companies interested in the Santiago creek in regard to establishing a lake in the park. To supply it with water, it would be necessary to divert the creek. He said it was suggested that the water companies secure from James Irvine a right-of-way for the stream. That was eight months ago, and as yet nothing had been heard by Struck on the matter. He said he thought the citizens and water companies ought to take the matter up with Mr. Irvine at once.

With a statement from Shaw that the Santa Ana Chamber of Commerce would be glad to encourage any good plan of improvement that may be proposed, the matter was dropped.

No Action Taken

The resignation of J. F. Walker of Anaheim as a member of the county board of education was read, and along with it the application of Van Derveer of Anaheim for appointment to the position. On the request of Supervisor Schumacher the matter was laid over until the next meeting.

Petition Granted

On the recommendation of District Superintendent of Schools Mitchell the petition of Sunset Beach residents to have Sunset Beach taken from the Sprinedale school district and placed in the Huntington Beach district was granted.

Robinson Appointed

This afternoon the supervisors granted the petition of the Orange County Fish & Game Protective Association asking that the office of game warden be established and that W. K. Robinson be appointed at a salary of \$50 a month. Robinson is to make monthly reports to the board. He stated that he could not hold the job at \$50 a month unless the state commission would give him additional salary.

To Have Chapel

A petition signed by 582 church members asked that in the plans of the County Hospital the board include a chapel so that services can be held by church organizations for the benefit of the inmates of the hospital and those living on the poor farm. The petition was granted. The supervisors decided today to meet on the third Tuesday of each month to pass on all hospital bills.

EXPRESS COMPANY FEARS PARCEL POST

Cannot Meet Competition on Small Packages Where Profit Lies

SAN FRANCISCO, Jan. 8.—Testifying before the state railroad commissioners yesterday C. R. Graham, traffic manager of the Wells-Fargo Express Company, gave the first statement made by any American express company as to the effect the parcel post may have on the express business.

"We cannot compete with the parcel post rate," he said. "If we lose any of our small package business the effect will be disastrous. But we do not expect to lose it all, by any means."

"We do not know how much of the business we are going to lose. That can only be developed by time."

Twelve-Day Estimates
"We have chosen twelve days in 1911 from which to make our estimates, and have checked up all packages carried on those days. On the

Who Said Overcoats?

If there's a man around who even thought "Overcoats" we want to see him.

We have some overcoat inducements that will be hard to get away from.

We've the best efforts of the best overcoat builders.

Overcoats full of swellness—the medium length, the ulster or the Chesterfield in all its dignity and comfort—the button through—the military cut and the auto coat, are here at their best.

Fabrics of imported kerseys, unfinished worsteds, chevots, etc.

We've got a coat to match any man's best overcoat thoughts.

Remember, we count showing our goods a pleasure.

Overcoats at \$12.00, \$15.00, \$18.00, \$20.00 and up to \$25.00.

Auto Coats, Garbardines and Rubberized Rain Coats at \$5.00, \$7.50, \$10.00, \$15.00, \$20.00 and up.

The Wardrobe

Uttley & Mead.
117 East Fourth St.

business in California carried on those days, 24.92 per cent of all classes weighed eleven pounds or less. This is the percentage of packages.

"The revenue on all California business derived from carrying small packages was 20.55 of the total revenue."

"I leave it to the members of this commission to decide for themselves what effect the parcel post will have on the business of Wells-Fargo & Co., provided the postoffice department takes away from us any considerable amount of business."

"All we can do is to wait and see. We can make no estimates."

"We have developed a small package business in dried fruit, nuts and such things and we have stimulated the use of eight and ten-pound packages. I suppose that much of this will go to the government."

Graham says a history of the development of the Wells-Fargo business, showing how it had started from almost nothing and how there had been but one rate for handling all classes of merchandise even as late as 1885.

Rates on Perishables Lower
He said the company then began to make commodity rates and showed how the rates on foodstuffs, milk, and perishables generally are lower than on merchandise.

Graham claimed credit for the company for the development of the fruit industry in California.

During the 1912 fruit season 3000 carloads of transcontinental vegetables and fruits originated in the Imperial Valley, where all of the fruit and vegetables grown prior to 1899 were consumed at home, Graham said. The express company made the first experiment with California green asparagus to foreign markets in 1899, and in 1912 the transcontinental shipments totaled 131 cars by express and 229 cars by freight, according to the witness.

IN THE JUSTICE COURT

SAYS HUSBAND IS A BIGAMIST

Los Angeles Girl Swears to Complaint Charging Calvin Has Another Wife

According to Mrs. Dick H. Calvin, aged about 20, Calvin has one more wife than the law allows. Mrs. Calvin lives in Los Angeles. She has been here and has sworn to a complaint charging Calvin with the crime of bigamy.

The complaint, sworn to by the Los Angeles girl states that Calvin made himself a bigamist on July 24 in Santa Ana. He gave his age as 21, and married Constance I. Oxner, aged 19. The woman who at that time became Mrs. Calvin now swears that Calvin had a wife at that time living and undivorced, her name being Elanthe E. Calvin. The July 24 ceremony was performed by Justice Fullerton. The couple came from Los Angeles.

Admits the Theft
Miguel Talantes, a Delhi Mexican, today pleaded guilty to stealing four bales of hay from W. H. Jones, a San Joaquin farmer. Justice Cox will pass sentence this afternoon at 4 o'clock. Deputy Sheriff Law located the hay at Delhi, and yesterday took Jones to the place. Jones easily identified the hay as hay stolen from his barn.

Paid for Battery
George H. Dillon today paid a fine of \$5 after pleading guilty to a charge of battery brought against him by Ray McCollum, who stated that Dillon hit him on the side of the face.

Shifty Wright
H. A. Miller of Newport Beach today swore to a complaint charging Frank Wright with defrauding him of a \$15 board bill. Wright served six months in the county jail for stealing bicycles. He was an expert stone-polisher. He went to Newport Beach and was engaged for a time in polishing moonstones and other stones of that kind. He left without settling his account with Miller.

AT THE COURTHOUSE

TWO YEARS IN SAN QUENTIN

Mexican Must Serve Time for Attempting to Cut Off One of His Wife's Ears

This morning Erigido Garcia, a Mexican, pleaded guilty to assault with a deadly weapon upon his wife, Florence Reyes, and was sentenced to two years in San Quentin. Garcia attacked his wife with a bent knife, and struck her a terrific blow on the side of the head. One of the woman's ears was almost cut from her head. The attack occurred on Sept. 4. Garcia has been in jail since that time. He pleaded not guilty but today withdrew his plea. Attorney C. R. Allen of Fullerton represented him.

To Quiet Title
Attorney H. C. Head yesterday began action to quiet title to some school property at Placentia, and in order to bring suit it is proposed to have letters of administration on the estates of two Placentia pioneers issued to F. W. Mansur of the Orange County title Co. Mansur has applied for letters on the estate of William M. McFadden, who died in 1902, and on the estate of Theodore Staley, who died in 1903. The suit is considered necessary to correct a mistake in an old deed to two acres of land.

Left No Heirs
J. S. Howard of Anaheim has petitioned for letters of administration on the estate of Paul Reckman, who died on Dec. 3 in Phoenix, Ariz. The estate consists of \$1500 in a bank and a claim of \$50 against a lounge. The Anaheim Odd Fellows lodge is a creditor of the estate, and as such applies for letters. So far as can be determined by the petitioner, Reckman left no heirs. F. C. Spencer is attorney for Howard.

LUCKENBACHS TO OPERATE ON PACIFIC

Will Carry on Business Lately Given Up by Bates and Chesebrough Line

SAN FRANCISCO, Jan. 8.—J. L. Luckenbach, son of the founder of the Eastern Steamship Company which has been operating freight vessels in the Atlantic for half a century, announced Monday night that the Luckenbach interests would take over immediately the business of the defunct Bates and Chesebrough line and continue in the field as a competitor of the Pacific Mail Company.

February 1 is the date set for the inauguration of the service, which will be by way of the Isthmus of Panama and later via the canal. The Luckenbachs already own four freighters in Pacific waters, some of which were under charter by the Bates and Chesebrough line, and the first of

these, the steamship Pleiades, will leave San Francisco with a cargo for New York within less than a month, according to announcement.

Luckenbach said it was the intention of his company to operate a two weeks' service between San Francisco and Panama at first, the sailing dates to be arranged at shorter intervals when the business increases. The firm has applied to the Harbor Com-

mission for permanent dockage facilities.

SOCIETY WOMEN TO CARE FOR GIRLS ON PROBATION TRIAL

WASHINGTON, Jan. 8.—Plans are almost completed by the mothers' congress of the District of Columbia and wifeless leading society women and child who has been placed on probation by the court.

and government officials will shortly adopt the role of foster mothers to delinquents who come under the jurisdiction of the juvenile court.

The finishing preparations probably will be made at a meeting of a committee of the congress January 21. It is planned to have each woman take an undertaking to watch over one child who has been placed on probation by the court.
